IEEMA Meter division proudly announces the 8th edition of METERING INDIA seminar, the benchmark event of the Indian Energy Metering Industry. METERING INDIA, powered by IEEMA, is a biennial event organized in collaboration with various stakeholders in the electrical eco-system. Over a decade in the past, this event has not only offered a platform to express diverse perspectives but also served to help power sector utilities address the challenges and issues associated with the absorption of new technologies.

Since 2004, more than 2200 delegates representing various diversified fraternity of power sector have participated in METERING INDIA Seminars. The last edition was attended by over 500 participants representing more than 170 organizations comprising Utilities, Consultants, Franchisees, Institutions, Testing Labs, System Integrators, Regulators, Solution providers and Manufacturers.

### METERING INDIA 2019.....WIDENING HORIZONS

Metering is no longer limited to the conventional application of billing alone. It also provides useful information for Analytics, Pricing mechanisms, Demand Response, Load curtailment, revenue protection, Demand forecast, Energy management etc. Services like installation, billing, analytics, improvement in billing efficiency, renewable integration and management, etc. have all become a part of the wide horizon of Metering Solutions. Further, Metering is now converging with Smart Grids and Smart Cities.

As the theme of the Metering India 2019 suggests, we welcome global thought processes, experience, case studies, technology developments etc. to make Indian utilities sustainable through the deployment of smart technology, smart business processes, analytics, stakeholder involvement and awareness, etc.

This seminar offers a platform for technologies in metering, renewable integration, energy efficiency enhancement, last mile connectivity, demand side management, smart devices and information technology to showcase their latest trends contributing towards sustainability. The seminar also aims on voicing the opinions on global best practices

in contract management, envisaging programs as value delivery tools by breaking the silos, gaps in standards and regulations and expectations from various stake-holders.

The metering industry in India has matured since its inception five decades ago in partnership with all the stakeholders is poised to take on this challenging journey of making the Indian utilities smart and sustainable. We aim to gather cross-section of knowledge from stake-holders under a single umbrella and channelize all the efforts in the direction of building a sustainable and inclusive future that is beneficial for all.

### THE 2019 EDITION OF METERING INDIA SEMINAR IS BEING ORGANISED FOR PARTICIPANTS FROM :

- Utilities
- Energy Service Companies
- Electricity Tariff Regulators
- Testing Institutes
- Utility Service Providers
- Consultants
- Academic and Research Institutes
- Building Sector
- Industrial Sector
- Solar & Wind Farm Equipment manufacturers
- Captive Power generators
- Power Traders
- AMI solution providers & System Integrators and Manufacturers of Energy meters

## THE 2019 EDITION OF METERING INDIA SEMINAR PROPOSES TO HAVE FOLLOWING SESSIONS:

1. Smart Metering and AMI
2. Metering Technologies and Smart Trends
3. Metering Standards
4. Renewable Integration & Empowering Consumer
5. Data Analytics & Usage
6. Communication Infrastructure & Technologies
7. Learning from Smart Grid Pilots
8. International experiences of AMI Deployment
9. Panel Discussions

## PAPERS WILL BE PRESENTED IN THE FOLLOWING AREAS

1. Empowering Consumers
2. Smart Meters and Smart Networks
3. Renewable Integration
4. Indian Drivers for Smart Metering
5. Green Energy
6. Metering Applications beyond Utility
7. Data Analytics & Management
8. Learning from Smart Grid implementation - Indian journey so far
9. Roll Outs and Road Blocks
10. Communication, Infrastructure and Technology
11. Infrastructure Readiness
12. Demand Response
13. Smart Grid-Utility Perspective
14. AMI Readiness in India
15. Making Utilities Sustainable (Through Technological, Financial, Social, Environmental and Managerial Aspects)
16. Meter beyond Metering.

## CALL FOR DELEGATES :

Metering India 2019 will give an excellent opportunity to participants from various stakeholder groups in the metering value chain to enhance their technological expertise. The seminar will also provide detailed insights on various key system components and their latest technological trends, keeping in mind an end-to-end solutions scenario in the expected smart world. The challenges being faced by different stake holders will be discussed at length to enrich the experience of all the participants, and enhance their knowledge with a real-world approach.

## DELEGATE REGISTRATION:

The two-day seminar will start with registration at 8:30 am on Thursday, 8th August 2019. Inaugural sessions will commence at 10:00 am.

Registration fee for the delegates as per their organisation / country is as follows:

Participants from Utilities, Regulators, Educational, Testing, R&D and other institutions	: INR 7,500/- per delegate
Participants from IEEMA member companies	: INR 12,000/- per delegate
Participants from Industry, IT Companies and other organizations not specified	: INR 15,000/- per delegate
From Overseas	: US \$ 300 per delegate

- GST of 18% will be applicable on the delegate fee.

Registration fee includes cost of Technical papers, Delegate Kit, lunch, Tea/Coffee on both the days and the Dinner on the first day. Delegates are advised to make their own travel and stay arrangements.

Delegate may register online on website <http://eventsieema.org/event-Metering-India>. However, the registration will be activated after receipt of payment. The online payment facility is available on website. In case of payments by Cheques, it has have to be drawn in favour of "IEEMA", payable at New Delhi.

## ORGANIZING COMMITTEE

- Mr. Amarjeet Singh-Convener (L&T) • Mr. Sundeep Tandon-Mentor (HPL Electric & Power) • Mr. Rajesh Bansal (BSES Rajdhani Power) • Mr. Gaurav Sharma (BSES Yamuna Power) • Mr. V.K. Mishra (Capital Power)
- Mr. Vivek Goel (CEA) • Mr. B.A. Sawale (CPRI) • Mr. Vinod Gupta (ERDA) • Mr. Anand Srivastava (Landis + Gyr) • Mr. Sanjay Ahuja (Larsen & Toubro) • Mr. Narang N Kishor (Narnix Technolabs) • Mr. Atul Bali (National Smart Grid Mission) • Mr. R.K. Singh (Tata Power Delhi) • Mr. Anil Mehta (Secure Meters Ltd) • Mr. Manish C Swamie (HPL Electric & Power) • Mr. Kailash Paliwal (Genus Power) • Mr. Manoj Taunk (Adani Power Ltd)

## ORGANISERS

METERING INDIA Seminars are organized by IEEMA, the representative national organization of manufacturers of electrical, professional electronics and allied equipment in India. IEEMA undertakes various activities for the benefit of the electrical industry and its users, major ones being dissemination of information such as production statistics, government policy changes; representing the industry's views to the government; evolving price variation clauses covering a wide range of products and evolving of industry standards; training, etc. IEEMA has started new activities like International Cooperation, Export Promotion, Energy Conservation, Quality and promotion of "Made in India" brand etc., to further help members improve business globally. IEEMA also works with the Ministry of Power, Government of India on Power Development and Reforms Programmes. IEEMA publishes a popular monthly journal, IEEMA Journal, which is devoted to techno-commercial aspects of the industry and utilities. IEEMA provides a forum for discussion on technical and commercial matters.

IEEMA also organizes ELECRAMA Exhibitions, the largest exhibition of electrical, industrial electronics and allied products in the world.
